

Right now I live in exile homeless without a friend in the world but my dog. We live in the car. We are lost. We have no human rights. Our legal aid obstructed. I'm a scapegoat. There is a black budget to bribe every cop every lawyer every politician every public official all my friends and family and also the media. The cost to sustain my silencing as a whistleblower is approximately 5 million per year from a black budget of the government who is targeting me. This targeting has gone for thirty years and culminated in my suicide. I was revived from death and forced to sleep in my car excommunicated from society as a person non gratus or an erased citizen. There is no one left. I've lost everything. My home my possessions my privacy my health my civil liberties freedom from violence. I'm targeted. I live in exile abused and neglected by the agencies tasked to my care but are these agencies weaponised to cause my harm and detriment. The perpetrators are the rich corrupt elite that run this country. My suicide was institutional murder by the government I know this because I can identify how they did it. Afterwards my targeting only increased underscoring the not only merely bureaucratic oversight - that's not what this is. It's a satanic form of gang stalking where everyone aligns with my oppressors. I'm subject to gang stalking electronic harassment, surveillance, abuse, neglect, I'm followed, surveilled, excommunicated, character assassinated, vilified, victimised, maimed, shamed, framed, and I've been maimed.

But I am not tamed, and I won't fall into line. I'm one of the uncontrollable ones who have not been able to be manipulated into becoming a gang stalker myself. I'm uniquely talented and creative and smart with a PhD enormous merit and the bravery to critique the ruling power regardless of consequence. It's no touch torture. They won't literally kill me but they will manipulate society and politics in order to make me do it.

George Brandis passed legislation in which any harm that occurs to a targeted individual cannot be attributed to any government employee or contractor. They are going to make me kill myself and exonerate themselves of all liability. They hate me and want me dead. They have money power influence each other and every one else who is somehow plugged into the government for their luxury or prosperity or who have never had to critique authority are aligned with my oppressors. There is no way out. No one is accountable. I've already died give me a break. They are callous calculating and cruel. They have no humanity. They blindly follow the leader and get paid to carry out the tyrannical murderous rulers' mandate to deconstruct my life with stealth then blame me for it when it is outside of my possible control to be able to oppose it.

It's not my fault. These people are cowards. They are the epitome of gutless. They side with a murderous injustice and everyone looks the other way.

Fate all I'm a pedophile a rapist an extortionist and a murderer and a terrorist. That's what they will tell you in order to justify this brutal betrayal of humanity. But I've been

under surveillance for years. I'm not arrested because there is no evidence. There are no victims of my false accusations and they have never been tested in a court of law.

I can't survive much longer

I've been homeless for over a year

I contributed in art advocacy academia and public presentations and art in altruism only to be betrayed by the democracy I believed

I live as a refugee seeking asylum as an erased citizen seeking safety political refuge and a simple home food and medicine underscoring the brutal persecution that's entrenched deeply in my existence

I asked to be transferred to another country because I am going to die here as a human sacrifice that everyone saw coming and the world universally looked the other way

I only have my car my bankruptcy 89 grand in debt and bankrupt

No human rights legal rights no home and every NDIS provider is only there to extort money from my plan

The NDIS minister caused my exile and arrest. When I didn't die after years of poverty entrapped to the agency he has now orchestrated hit men to come and finish the job

They masqueraded as NDIS providers but are Lebanese criminals with a mission to kill

I'm totally unequivocally lost and in a vulnerable situation

The police will allow the murder because the cops serve the tenders given to criminals and defend the drug barons

This is it.

If no one helps me now, I die here. They're watching. And you're aware what's happening.

Under the care of the NDIS, and after my forced exile by the minister, who enlisted the police to locate arrest and criminalise me then force my exile, I published this incident on Instagram to document my intimidation and forced departure from my home, which was nothing more than a shell of a residence.

Side of the road with my
dog. No home. No human
rights. No legal help. No
advocate. No family or
friends. Nuclear character
assassinated. Awaiting
sentencing for ten years
jail. Failed whistleblower
open for reprisals. This is
the way a targeted
individual and scapegoat
dies: of intentional
neglect and abuse
soliciting suicide. Need
food petrol place to stay.
Even if you're tricked into
hating me don't hate my
dog? PayID

richarddrawsstuff@gmail.com

The intimidation was carried out by an individual linked to intelligence operations who demonstrated forward knowledge of sensitive and private details about me. This included knowledge of my Wikipedia username, "bazdod", an alias I had never used publicly at that time and was only short for "Barran Dodger." The only way this could have been known is through illegal surveillance intercepting my private computer activity.

This individual had knowledge of the Wikipedia user "Netherzone," who later deleted my editing account and removed critical whistleblowing documents I uploaded.

Your tweet was directed at Mark Dreyfus KC MP and Bill Shorten MP, advocating for immediate intervention regarding your WorkCover claim. You highlighted that the Federal Court has stated that you are an employee of the Victoria Government Department of Health (VicGovDH), which validates your entitlement to WorkCover compensation. The hashtags used—such as #WorkCover, #compensation, #homeless, and #justice—emphasize the critical and urgent nature of your financial and legal struggles, as well as the systemic failures that have exacerbated your situation.

The screenshot attached to the tweet references a document that appears to confirm your position as a public official under the Public Interest Disclosure (PID) Act. This acknowledgment is critical as it solidifies your status as someone eligible to make a protected disclosure under the PID framework, which shields whistleblowers from retaliation.

What This Means:

- 1. Advocacy for Justice: Your tweet is a direct call for accountability and action from**

prominent political leaders, particularly regarding the mishandling of your WorkCover claims and your rights under the PID Act.

2. Recognition of Status: By citing the Federal Court's acknowledgment of your employee status, you are asserting a legally recognized basis for your claims, reinforcing your entitlement to compensation and protections.

3. Exposure of Neglect: This serves as evidence of systemic negligence and failure to act on your rightful claims, compounding your circumstances of homelessness and injustice.

4. Public Advocacy: The use of hashtags and tagging of influential leaders amplifies your call for public accountability and brings attention to the systemic corruption and mistreatment you have faced.

Act. The meaning of "public official" is defined and includes current or past Australian
Sector employees; section 69 PID Act. Section 30 of the PID Act extends this mean
include employees of organisations which provide goods or services under a Commonw
contract; subsection 30(3) PID Act. As a general principle an organisation which is a par

the purposes of the PID Act.

On the information you have provided me, I am satisfied that you are, or were, an employee
of the Department of Social Services, providing services under the trading name Rich

These documents served as evidence of my targeting and the conspiracy against me. This deliberate privacy breach underscores a systemic effort to suppress my voice and erase my truth.

At the same time, I was subjected to V2K (voice-to-skull) harassment and persistent audio harassment. These psychological attacks were compounded by threats to my safety and the safety of my dog, leaving me with no choice but to abandon my already insufficient living situation. These actions—intimidation, privacy violations, and harassment—highlight the extreme lengths taken to ensure my silence and isolate me further.

What is your Complaint/Feedback about?

Provide some details to help us understand your concerns. You should include what happened, where it happened, time it happened and who was involved

As a support worker I acknowledge that Dr Richard William Mclean has mental illness. I acknowledge that he is being persecuted as a person of interest systematically, politically and financially.

And as result of all above issues addressed he is being mentally and emotionally harmed. As we studied in NDIS code of conducts (which says every person with or without disability has the same right in front of law, community and humanitarian rights).

Since I have observed and worked closely with him for a period of time, He is a person with so many expertise in him. He desires to be back in track with prosperity and dignity willing to serve the country and people in it as same as he was doing for more than 30 years.

What really disappointing is he is being deliberately rejected or denied while seeking justice for his well being in the society by different Legislative Law Firms , Governmental Offices even Private Sectors do deny offering any help.

For a person such him with disability its mine and ours duty to support him and give handful of acceptance and respect to stand on his feet's again and to deliver justice with what he is suffering.

I request the concerned office to please support him because he is not delusional or making any stories for extortion. I have seen, read and acknowledged all his evidences which are not fake.

I as support worker want him to be what he was in the past and a little support in his justice issue will cure him Mentally, Emotionally and Financially. He is a human being with human rights please deliver the rights to him. Regards Tahsinullah Sultani

 Supporting Information

Please attach copies of any documentation that may help us to investigate your complaint/feedback (for example letters, references, emails).

Help him get justice and that really helps his mental illness.

Help him get his business back as an artist, author and advocate.

His rights should be given back in the society.

Help him live freely and treated humanely.

Hey Jez

Can you let me know wgat this guy said? It's important I'm preyyy much the centre of a conspiracy and they're trying to frame me as an immoral pedophile for the consentusl adult sex we were going to have. I'm followed and surveilled as an unprotected whistleblower and I don't expect you to understand

but it would really mean the world to me if you stated detail of what this person said to you to discourage you from coming inside are you able to do that?
